

Preface

FOCUS ON LEARNING PROCESS

The first Focus on Learning Process at St. Ignatius College Preparatory culminated in the Self Study Report published in January 2001. The St. Ignatius community found the exercise fruitful, especially the integration of 2001 Focus on Learning Action Plan into the Long Range Strategic Plan. Action Plan items from the 2001 report were addressed over the next six years. Faculty found the 2004 WASC Midterm Project enlightening with its focus on the use of data-driven decision-making. This cycle of collaboration, reflection, and improvement culminated in the 2005 SI Sesquicentennial Celebration. St. Ignatius College Preparatory began the second round of the Focus on Learning Process in the spring of 2005 when Principal Charles Dullea appointed Kate Kodros (Assistant Principal for Academics) and Paul Molinelli (Director of Professional Development) the 2007 FOL Self-Study Coordinators.

During the summer of 2005, Charlie Dullea, Kate Kodros, and Paul Molinelli (Core Leadership Team) established the processes and committees necessary to implement self-study processes that would involve the entire St. Ignatius community. The work of this summer included the creation of eight focus groups with approximately 20-25 members in each, 20 home groups, and the Student and Community Profile Committee. President Fr. Anthony Sauer, SJ, and Mr. Steve Lovette, Vice President, agreed that members of the Board of Regents would provide input to the FOL process through the already-established Regents Standing Committees, thus serving as additional focus group members. The President, Principal, Assistant Principal for Academics, Assistant Principal for Student Affairs, the Assistant Principal for Campus Ministry, the Professional Development Director, and the eight focus group chairs comprise the Leadership Team.

On August 22, 2005, Kate Kodros and Paul Molinelli introduced the formal process to the Academic Council, and on September 13th the process was introduced to the Leadership team. The entire faculty and staff met on August 23rd to reflect upon and reaffirm the Mission Statement, *Grad at Grad: Profile 2020*, and the school ESLRs. Kate Kodros and Paul Molinelli also met in September with the non-academic heads of home groups to review the FOL process. Charlie Dullea provided the Board of Regents with an overview of the process at the October 2005 Regents meeting.

Home groups, including the Student and Community Profile Committee, met throughout the fall of 2005. In October 2005, a daylong in-service was devoted to the FOL process, and additional time was set aside for home group meetings in November 2005. First drafts of the Home Group Reports were posted in the Shared Folder by the end of December 2005.

In spring of 2006, attention turned to the creation of the focus group reports. Focus groups reviewed home group reports during January, and revisions were made during February. Regents Standing Committees provided input to home group reports. Focus groups used these documents and the completed Student and Community Profile Committee reports as the basis for answering the guide questions in their respective areas.

In March 2006, another in-service was devoted to the FOL process. Focus group draft reports, including strengths and areas for growth, were posted to the Shared Folder for review, and revisions began in May of 2006.

During the summer of 2006, the Core Leadership Team used the areas of growth from the focus group draft reports to draft the Action Plan. The Action Plan draft was presented to the Academic Council on August 21, 2006, and was discussed in home groups on September 1st. The Leadership Team met on August 16th, and Regents Standing Committees in October, to provide input to the final draft of the Self Study Report and Action Plan. The Core Leadership Team implemented the feedback from these groups during October and November, and began final revisions and editing in December. The Executive Committee of the Board of Regents met in December with school administrators to begin the process of creating the next Long Range Strategic Plan, which will incorporate the 2007 FOL Action Plan. The FOL Self Study and Action Plan was presented to the Board of Trustees and the Board of Regents for their final approval in February 2007.
