

STUDY SKILLS

STUDY PRACTICES

Study Guides & Notes

- Go over notes
- Create study guides
- Prioritize concepts that are difficult for you,
- Keep your notes organized

Concept Maps

- Great for visualizing main ideas
- Identifying plot points
- Create character connections

Timelines

- Help understand stories by line
- Keep your concepts organized, chronologically
- Use it with other study tools

STUDY STRATEGIES

Learn to Teach

- Pretend you are teaching! If you can explain the material without referring to notes or the book then you are set!
- Talk while you study – this is especially helpful with languages!

Flash Cards

- Great for short answer/multiple choice and they are convenient
- Remember to use both sides

Test Yourself

- Find practice problems online
- Put yourself in your teachers' shoes and write yourself an essay question or multiple choice questions
